

Child Care Provider Tip Sheets

Diapering Tips

Why should these guidelines be followed?

- To promote sanitary conditions
- To prevent the spread of disease.

When should these guidelines be followed?

Any time a child is diapered.

What are the guidelines?

- Place child on diapering surface; remove clothing and diaper; throw diaper away in lined, hands-free trash container
- Use diaper wipes to remove soil from child's body
- Use diaper wipes to wipe adult's and child's hands
- Put on child's fresh diaper
- Replace child's clothing
- Wash child's hands
- Spray diaper surface with soap/water solution; wipe away
- Wash adult's hands
- Spray diaper surface with bleach/water solution; wait two minutes, then wipe away.
